Coal shortage in the thermal power plants

2276. SHRI N. BALAGANGA:
DR. M.A.M. RAMASWAMY:

Will the Minister of POWER be pleased to state:

(a) whether it is a fact that a number of thermal power plants including those of NTPC, continue to reel under acute coal shortage and face critical coal-stock position, which affects the power generation;

(b) if so, the details of such thermal power plants; and

(c) the action taken by Government to increase the coal supply to those power plants and to overcome the present crisis?

THE MINISTER OF STATE IN THE MINISTRY OF POWER (SHRI JAIRAM RAMESH): (a) and (b) Out of 77 Thermal Power Stations monitored by the Central Electricity Authority, as on 17th December, 2008, 45 stations were critical, having coal stock of less than 7 days, 36 were super critical having coal stock of less than 4 days.

The details of coal stock at various power stations in the country as on 15.12.2008 is given at Statement-I. (*See* below) and the details of generation loss reported by the Power Plants due to shortage of coal during 2008-09 (upto 30th November, 2008) is given at Statement-II. (*See* below)

(c) Following steps are being taken by the Government of India to meet the shortage of coal for power stations:—

(i) Regular monitoring of supply of coal to Thermal Power Stations for optimizing coal supply to the power stations from various sources.

(ii) Constantly following up with Ministry of Coal to increase supply and offer.

(iii) Import of coal to bridge the gap between requirement of coal and its availability from the domestic sources.

(iv) New coal blocks are being allocated by the Ministry of Coal to power producers utilities for captive mining to meet requirement of their power plants.

Statement-I

Coal stock position at various thermal power stations in the country as on 17.12.2008
